

We need your help.

Do you have large, easy-to-read reflective address numbers on your house or at your driveway entrance? Proper addressing is very important to your fire department. Reflective numbers shine at night by reflecting off the headlights of on-coming vehicles. Even on a dark, rainy night we can see them well. As your fire district, we are making it easier for you to get reflective addressing for your home. If you order the signs with the form below, we will put the numbers on the markers and you can pick them up; or if you wish, we can install them for you. If you have any questions about this program, please call 360-568-2141.
